unify.com

Using your OpenScape Desk Phone IP

Place a Call

- Lift handset, dial number and press **OK**, or
- · Dial number and lift handset, or
- For handsfree call: dial number and press **OK**, or
- For headset mode: dial number and press OK.

Redial a Number (last dialed Number)

• Lift handset and press **OK**.

Dial from the Call Log

- 1. Press Messages.
- Select "Call log" and press OK.
 Select "Missed", "Dialed", "Received", or "Forwarded" calls and press OK.
- 4. Select the desired entry and press **OK**.

Answer a Call

- Lift handset, or
- For handsfree call: press Speaker or OK, or
- For headset mode: press Headset or OK.

Deflecting an Incoming Call while ringing

- 1. Select "Deflect" from the context menu and press **OK**.
- 2. Enter a destination phone number and press **OK**.

Hold or Retrieve a Call

- During a call press **Hold**.
- To retrieve a call: press **Hold** again.

Make a Conference Call

- 1. During a call with party A, press Conference.
- 2. Hear dial tone. Party A is automatically on hold.
- 3. Enter the phone number for party B and press **OK**.
- 4. Once connected with party B, press Conference. You are now connected in a conference with parties A and B.

Transfer a Call

- 1. During a call with party A, press **Transfer**.
- 2. Enter the phone number of party B and press **OK**.
- 3. You may then either: press Transfer while party B is ringing, wait for party B to answer, announce the call and then press Transfer.

Switch to Handsfree Call during a Call

• Press **Speaker** and hang up.

Using your OpenScape Desk Phone IP

Switch to Handset Mode during a Call

· Lift handset.

Switch to Headset Mode during a Call

Press Headset.

Using mute during a Call

- Press Mute and the LED lights to show all microphones are muted.
- · Press Mute again to un-mute.

End a Call

- Hang up, or
- For handsfree call: press **Speaker**, or
- For headset mode: press **Headset**.

Call Voicemail

- 1. Lift handset or press Speaker.
- 2. Press **Messages**. The mailbox is called.

Program Call Forwarding

- 1. Press Forward.
- 2. Select "Set a forwarding destination" and press **OK**.
- 3. Enter the destination number and press OK.

A Call Forwarding for all calls is now configured and activated.

Turn Call Forwarding on or off for All Calls

Press Forward and press OK.

Program a Programmable Function Key *

- 1. Press **Settings**, navigate to "User" and press **OK**.
- 2. Enter the user password and press **OK**.
- 3. Navigate to "Phone" and press **OK**.
- 4. Navigate to "Program Keys" and press **OK**.
- 5. Press the desired programmable key. The LED will be lit.
- 6. Select "Normal" and press **OK**.
- Select desired function and press **OK**.
- 8. Enter additional parameters as appropriate and press
- 9. Select "Save&Exit" in the menu and press **OK**.
- 10. Press **Settings** to return to phone mode. The desired function is now configured.
- *) It is recommended to either use Web Based Management or to consult the administrator.
